LAKSHAY MANCHANDA

Software Engineer | AI/ML & Backend Systems

lakshaymanchanda574@gmail.com | +91 9306595652 | LinkedIn | GitHub | LeetCode | Karnal, Haryana, India

EDUCATION

B.Tech, Computer Science and Engineering (Spec. AI & ML) 2024 – 2028

University of Petroleum and Energy Studies (UPES), Dehradun — CGPA 8.56/10 through 4th semester | Class XII: 77% | Class X: 96.8%

TECHNICAL SKILLS

Languages & Backend: Java, PHP/Laravel, Node.js, Express, Spring Boot, Next.js API Routes, REST APIs

Frontend & Mobile: React, Next.js, React Native, TypeScript, JavaScript, Tailwind CSS, Vite

Databases: MySQL, PostgreSQL, Prisma ORM, SQLite

Tools & Practices: Git/GitHub, Jira, Figma, Vercel, Swagger/OpenAPI, Agile/Scrum, Data Structures & Algorithms (Intermediate), System Design, Team Leadership, Technical Documentation

AI / ML: LLM Orchestration, Prompt Engineering, RAG, Deep Learning, Pinecone Vector DB, Scikit-learn, NumPy/Pandas/Matplotlib, Regularization (L1/L2)

Core CS Subjects: OOPS, DBMS, OS, COA, DCN, DSA, FLAT

WORK EXPERIENCE

Software Engineer Intern — *NIIT Limited* (Certificate) Jun 2026 – Aug 7, 2026 | Gurugram, India (On-site)

- Worked full stack on the LMS's multi-tenant dashboard, program/series pages, and the user profile page, building both the React front end and the Java/Spring Boot APIs behind it.
- Designed a gamified learning journey view — streaks, milestones, and progress tracking — to make daily engagement more visual and rewarding.
- Built in-app viewers for PDF, SCORM, and video content so learners could go through course material without leaving the platform.
- Added animations across the app — transitions, streak celebrations, progress indicators — for a more polished feel.
- Set up clickstream event tracking and built an interactive app tour, helping new users onboard and giving the product team real usage data.
- Built REST APIs for the daily 'Thought of the Day' module and contributed to an AI roleplay simulation feature used for workforce skills screening.

React & React Native Developer Intern — *Frintt Stuudio Pvt. Ltd* (Certificate) Nov 2025 – Mar 2026 | Remote

- Built responsive frontend panels for the Back&Bone web app and the matching screens on the mobile app.
- Put together a shared component library of 20+ reusable UI elements to keep the web and mobile experiences visually consistent.
- Integrated REST APIs to surface real-time performance and biometric activity-tracking data for users.

PROJECTS

Enterprise LMS Platform Modules (Client Deployment) Jun 2026 – Aug 2026

- Built the enterprise LMS from scratch for corporate upskilling — dashboard, content catalog, and daily engagement features — used directly by client workforce staff.
- Delivered conversational AI modules that act as customer-facing characters in immersive roleplay training scenarios, using prompt-engineering schemas.

Java, PHP/Laravel, React, CSS, REST APIs, JSON Serialization

Ultimate CS Career Architect — AI Resume Audit Engine Mar 2026 – Present

- Built a 3-layer AI resume review engine that scores resumes against ATS criteria on a 0–100 scale.
- Used Prisma and PostgreSQL for data, NextAuth for authentication, and Mermaid diagrams to visualize the scoring logic for users.

Next.js, TypeScript, Google Gemini API, Prisma, PostgreSQL, NextAuth, Vercel

SaralYojna — Government Scheme Discovery Platform Nov 2025 – Feb 2026

- Built a civic-tech platform that helps users discover government schemes they're eligible for, covering 500+ Indian schemes.
- Used a Pinecone vector database to run semantic search over eligibility criteria instead of relying on rigid keyword filters.

React, Node.js, Express, TypeScript, Prisma, Pinecone (Vector DB)

Dungeon Escape: Cardbound — Desktop Game Feb 2026 – Apr 2026

- Implemented A* pathfinding with a Manhattan heuristic and wall-adjacency costs to drive enemy movement.
- Wrote custom GLSL fragment shaders to render dynamic radial lighting and falloff effects in real time.

Java, LibGDX, LWJGL3, GLSL Shaders, Gradle, LDtk Level Designer

TaskManager — Offline-First CRUD Mobile App Nov 2025 – Dec 2025

- Built a cross-platform task management app with offline-first storage via AsyncStorage and smooth 60fps animations using React Native Reanimated.

React Native, TypeScript, Context API, React Navigation

AWARDS & ACHIEVEMENTS

- Smart India Hackathon (SIH) 2025 — Internal College Finalist & Team Lead; led a 6-member team building cross-lingual clinical conversational screening models.

Languages: English, Hindi (fluent) **Interests:** Cricket, competitive hackathons, DSA practice, public speaking & debate, system design
